W. W. DIMOND'S

Novelties in household goods draw customers to the up-to-date stores; their presence on the shelves is an indication of push and energy combined with enterprise, the foundation to every successful business house. We find pleasure and profit in getting out of the old rut and bringing a few sunshine novelties into the store.

One of the woes of the average housekeeper lies in the can used to hold kerosene for the lamps. Frequently she finds the floor discolored by grease spots and disgust follows. One of our new Globe oil cans will obviate this and for very little money.

Crown fryers are as well known in the States as Crown bakers, nearly everyone whose stove has not a broiler attachment uses one because the result is practically the same. They are exclusive with us.

In the warm weather (and that means nearly all the year 'round with us), nothing is so refreshing as an ice cream or a sherbet. The Lightning Freezer excels all others in the making of these delicacies. We sell this in preference to any other.

After your dessert a cup of delicious coffee is almost necessary—you know what muggy coffee is? By the use of a Princess coffee pot the coffee is absolutely clear and free from grounds. When the berries are ground in an Enterprise mill such as we sell and cooked in a "Princess" nothing can be better.

You've read about chafing dishes, possibly owned one; those made of Aluminium such as we offer are the best, and in the end the cheapest.
